

Raggedy Andy Pencil Holder

Empty clean vegetable can

Flesh color Spray paint

Sharpies red and black

Few yards of red yarn

Ribbon for Bowtie

Hot Glue Gun

Cardboard 2 inches wide & 10-12 inches long

Spray the can with the flesh color paint. Let dry. Add features to face with Sharpies, using picture as a guide. Start eyes about 1- $\frac{1}{2}$ inches from top of can and leave room

for the bow tie at the base. Cut the cardboard to fit around the can. A cereal box works well for this. Wrap yarn as shown at right, then sew about $\frac{1}{4}$ inch from one edge. Clip yarn along opposite edge, and carefully remove the strip. It will tear along the stitches. It is not necessary to get the strip out along the sewn edge.

Turn the can upside down and hot glue the strip around the edge of the can, You may have to hold it in place for a bit until the glue sets.

Turn can right side up and smooth the hair so it hangs down. Fashion a Bow from ribbon and hot glue in place at base of the can.
