

# Apple Turkey Favor

Set one at each place at the table for a festive look at the Thanksgiving celebration.

List of supplies:

Art Foam in Brown, Red, Blue, Yellow and Green  
scrap of fabric for Bandana.

Flat Toothpicks

Pinking Shears

Puff Paints, Black and White for eyes and beak

Red Chenille Stem

White Tacky Glue

Delicious Apple

Trace the patterns on the foam using the photo as a guide for colors. Cut 2 tail feathers of each color with a pair of pinking shears. Cut 2 head pieces. Sandwich toothpicks between pieces for head and tail feathers, leaving enough at the bottom to stick into the apple. Spread them with Tacky Glue and clip them together or weight them down until they are dry. Use puff paints to make the eyes and the nostrils in the beak. Glue the beak into place. Shape the red chenille stem for the wattle, and glue to side of the beak as shown in the picture on page 2.

Cut the heart shaped fabric with pinking shears for the bandana. Overlap the x's on the pattern and glue with right sides up for the Bandana. Stick the toothpick holding the head through the opening and insert into the apple. Insert tail feathers. If you like you can add name tags for place settings.

Note: You may have to enlarge the pattern pieces on page two...The tail should be about 1 inch wide and 3 inches long and the heart for the bandana should be 3 inches across at the widest point. They don't have to be exact.
